Education

Kasetsart University Sriracha Campus
Computer Engineering GPA 3.01

Project

DMSKU Document Approval Workflow System

May - June 2026

- Designed UX/UI for key system modules, including project creation workflows, a dynamic Form Builder, and a real-time document tracking system.
- Developed frontend features using Svelte 5 for the Form Builder and document tracking modules, implementing dynamic data handling and interactive user workflows.
- Engineered an A4 print layout system for web-based document rendering, ensuring official university documents were accurately formatted for printing and PDF generation.
- Designed and implemented a granular permission management interface, enabling administrators to independently control user access rights and feature availability through an intuitive toggle-based system.

Lanyard E-Commerce Platform for the USA Market

November 2025 - March 2026

- Researched competitor e-commerce websites and designed UX/UI solutions for the U.S. market.
- Created wireframes and interactive prototypes using Figma.
- Developed responsive frontend pages with HTML, CSS, Bootstrap 5, and JavaScript.
- Collaborated using GitHub and deployed the project on Vercel.

Manga E-Commerce Platform

October 2025

- Developed a full-stack e-commerce web application using the MERN Stack (MongoDB, Express.js, React, Node.js).
- Implemented user features including product browsing, category filtering, shopping cart, address management, and order checkout.
- Built an admin dashboard for managing books, orders, and user data.
- Designed MongoDB schemas for users, books, carts, orders, and addresses.

2D Game Development Project

August 2025

- Designed and built multiple game scenes, including environment setup.
- Created and integrated 2D characters and assets into the gameplay.
- Implemented background music and sound effects using Unity Audio Mixer for dynamic control.
- Developed an in-game Pause Menu (ESC) with options for Resume, Restart, Settings, and Quit.

Internship Experience

YOU AND EARTH (THAILAND) CO., LTD. — UX UI designer

November 2025 - March 2026

Activities

- Code Battle Contest — Joined programming competition, solved algorithmic problems under time constraints
- Web Application Security Workshop & CTF — Attended a training session on Basic Web Application Security

Technical Skills

Languages & Technologies: C, C++, Python, JavaScript, HTML, CSS, MongoDB, MySQL, React, Vite, Git/GitHub, Postman, Figma

Spoken Languages: Thai (Native), English (Basic)
